

3rd International Conference on Progress in Additive Manufacturing PRO-AM 2018

14 to 17 May ▪ Nanyang Executive Centre, Singapore

We invite experts and researchers world-wide to share their latest breakthrough in additive manufacturing at the 3rd International Conference cum exhibition on Progress in Additive Manufacturing.

- Learn about scientific breakthroughs and technological advances in Additive Manufacturing from global subject matter experts and researchers.
- Witness the latest technologies and applications that will be displayed by commercial market players at the trade exhibition

Major Topics

- Applications and Industries
- Design
- Equipment & New techniques
- Materials
- Measurement Science & Methods
- Software & Data Processing

Papers from other topics in Additive Manufacturing are also welcome.

About the Organiser

The Singapore Centre for 3D Printing (SC3DP) aims to be a world leader in 3D Printing and a wellspring of knowledge by attracting leading researchers to the Centre and nurturing a skilled talent pool, establishing strong linkages with and delivering state of the art and innovative solutions to the industry.
